

ZERO TRUST FAST TRACK

Our Zero Trust Fast Track is designed for organizations that are ready to implement Zero Trust quickly and efficiently. The ON2IT Zero Trust Fast Track lets you benefit directly from our proven methodology that has been a guidance for hundreds of successful Zero Trust implementations.

THIS IS YOUR ZERO TRUST JOURNEY

Zero Trust enhances the preventive capability of your current controls. It greatly reduces your business risks to the lowest possible level, today and in the future.

The ON2IT Zero Trust Fast Track is created to ignite, or, if you have already embarked, mature your Zero Trust journey.

Our internationally recognized Zero Trust experts have years of hands-on experience consulting with organizations across the globe.

The Zero Trust Fast Track takes an in-depth look at:

- Data toxicity
- Protect surfaces
- Zero Trust architecture
- Controls mapping
- Transaction flows
- Compliance

If you say no to Zero Trust, what are you saying yes to?

Fast Track your Zero Trust now

The Zero Trust Fast Track consists of five consecutive, intense days during which your staff will be educated and challenged on-premises in order to fulfill the Five Step Process in your infrastructure.

With our fast track approach, you'll be up and running with Zero Trust in no time, reducing your organization's risk of cyberattacks.

Outcome

After completing the Zero Trust Fast Track you'll be presented with fully defined protect surfaces in our AUXO™ portal, as well as a high level design and implementation plan for these protect surfaces. This plan will be complemented with our best practices and improvement advisories.
