

ZERO TRUST READINESS

If you're ready to adopt Zero Trust but have more questions than answers, the ON2IT Zero Trust Readiness is designed for you.

We'll help you understand the core tenets and benefits of Zero Trust, define your Zero Trust strategy, assess your current position and build the right Zero Trust roadmap for your unique environment.

THIS IS YOUR ZERO TRUST JOURNEY

If you are just starting or if your organization has already embarked on the Zero Trust journey, our assessment gives you unparalleled insight in your progress and the next steps to a more mature Zero Trust practice by using our unique Zero Trust Readiness methodology.

Through intensive workshops and discussions with key management representatives and benchmarking your current and desired Zero Trust maturity levels in strategy, management and operations, you will have an objective and well-documented reference document and roadmap to map your progress in preventing cybercrime more effectively.

The Zero Trust strategic approach will raise your security posture, lower risks and impact and help you in getting a higher ROI for your cybersecurity spending. This assessment will help you in speeding up the implementation of your Zero Trust strategy.

TOPIC	CURRENT MATURITY LEVEL	GAP	OBJECTIVE MATURITY LEVEL
Business Risks	1.5	2.5	4.0
Architecture	0.5	3.0	3.5
DAAS Governance	1.0	2.5	3.5

ZERO TRUST

TIME	DESTINATION	FLIGHT	NO.
11:30	READINESS	TU	4709
12:45	FAST TRACK	UA	6385
14:10	COACHING	JP	8290
15:20	AS A SERVICE	WP	5098

ON2IT Zero Trust Readiness performs a guided assessment based on the three organizational levels of strategic, managerial and operations. The assessment determines the objective for all relevant topics that are required for the successful execution of a Zero Trust strategy and rates if the business is ready for the required process, governance or services. Based on the results, organizations can assess their gaps and develop an implementation and improvement plan.

ON2IT Zero Trust Readiness starts with an assessment questionnaire, followed by an (online) workshop. During this workshop, maturity scores and averages will be calculated using the ON2IT questionnaires at the management level.

The results of the workshop will be summarized by ON2IT in an advisory document, containing the gap analysis and the long- and short-term improvement recommendations to implement the Zero Trust model.

GET STARTED WITH ZERO TRUST

Each organization is looking for different types of guidance when it comes to Zero Trust, depending on their starting point and end goals. The table below indicates the differences between the three ways to get started with Zero Trust.

	ZERO TRUST READINESS	ZERO TRUST FAST TRACK	ZERO TRUST COACHING
Approach	Strategic	Accelerated	Tailored
Focus	Assessment and roadmap	Rapid deployment	Skill development
Engagement	Short term, intensive	Short term, intensive	Long term, ongoing
Expertise	ON2IT professionals	ON2IT professionals	ON2IT professionals
Customization	High	Medium	High
Outcomes	Defined strategy and roadmap	Quick implementation	In-depth knowledge
Deliverables	Detailed assessment report and deployed solution	Deployed solution	Personalized coaching
Ideal for	Organizations in any stage of their Zero Trust journey	Organizations with limited time or resources	Organizations with dedicated security teams

WHICH ZERO TRUST IMPLEMENTATION APPROACH IS RIGHT FOR YOUR ORGANIZATION?

In order to truly get a headstart with your Zero Trust implementation, a combination of all three of our Zero Trust offerings will be what covers all your bases. Depending on where you find yourself in your Zero Trust journey, we may recommend starting with one specific offering.

Don't hesitate to reach out to us for personalized advice if you want to know which Zero Trust implementation approach is right for you.
